

To,

The Principal / Head of Department (MMICT&BM)

MM Institute of Computer Technology & Business Management, Mullana-Ambala

Date: January 10, 2026

Subject: Request to initiate Google Cloud Skills Boost Arcade 2026 Program for BCA/B.Sc. Students

Respected Sir/Ma'am,

I am writing to propose a student-led learning initiative focused on **Cloud Computing and Generative AI** under the **Google Cloud Skills Boost (Arcade 2026)** program. As the technology landscape shifts rapidly towards cloud infrastructure and AI, it is essential for our students (BCA, B.Sc., and related streams) to gain industry-relevant practical skills beyond the standard curriculum.

About the Program: The "Arcade 2026" is a gamified learning program by Google Cloud. It allows students to access hands-on labs (usually paid) for free. Students will learn:

- **Generative AI & Machine Learning:** Practical implementation using Google's latest tools.
- **Cloud Infrastructure:** Basics of computing, storage, and networking.
- **Big Data:** Handling data at scale.

My Role & Execution Plan: I have been actively involved in the **Google Cloud community** and will serve as the **Peer Mentor/Facilitator** for our college cohort. My responsibilities will include:

1. Guiding students through the registration process.
2. Helping them troubleshoot technical issues in labs.
3. Ensuring they complete the monthly challenges to earn digital badges and potential Google Cloud rewards/swag.

Request: I request your permission to circulate information about this program among the students and invite interested candidates to join this cohort. This initiative is **free of cost** for the students and the institution.

I have attached a draft of the program curriculum and registration details below for your review.

Thank you for supporting this upskilling initiative.

Sincerely,

PRATIPAL KUMAR SINGH

BCA 6th Sem.
