A lab-free course consists of textual content, videos and quizzes about a particular cloud concept for quick learning and does not require lab completions or Google Cloud Skills Boost credits.

Arcade Facilitator Points System

- Arcade Facilitator milestones are different from Arcade Player achievements. Completing a Arcade Facilitator milestone **DOES NOT** make users eligible for swags.
- Please ensure participants are subscribed to the Arcade with same email address with which they have registered for the facilitator's program
- We are not giving points in decimals. 1 Skill badge completion is NOT equal to 0.5 point. 2 skill badge completions will give 1 Arcade point only.

Excellent facilitator who help all member as friend and understand difficulty faced by member without being angry or frustrate(No matter same question asked for multiple time or frequently).

Though I did not do it under your guidance as I started in the month of November of October last week, I found your grp to be pretty helpful, like even when you were not available to answer some people would share those respecive answers, their experiences , so overall I would say that I atleast had a nice experience
